

i would like to state my opposition to the lpfm proposal. our town only recently got access to a christian station of any kind. it is a translator station and carries KLOV national broadcasts. please do not allow these lpfm stations to take priority in frequency numbers over translator stations. the station we receive makes a difference in our community by allowing our church youth group to listen to music that is uplifting, positive, and encouraging. thank you for ready this and taking it into consideration.
